GOLF COURSE NEWS

Our course remains in strong condition as we move into May following a very active April.

April brought welcome rainfall, with 99mm received, which has been a great benefit to the course but has also led to some delays in planned projects.

During May, the team will continue with ongoing maintenance work, including further repairs to pathways and additional irrigation improvements.

Weather permitting, attention will also be given to addressing the drainage issue on the 18th hole, while drainage work between the 9th and 18th holes is also scheduled to commence.

The driving range is receiving extra focus, with work underway to clean up target greens and improve the playing surface in front of the hitting bays.

Exciting developments are also planned for this area, so stay tuned for updates.

Waterkloof continues to be regarded as a preferred “go-to” course among golfers, consistently receiving excellent feedback from members and visitors alike. The high standard of the course reflects the quality, care and pride in its presentation and playability.

This is a result of the hard work, resilience and dedication of the entire team, whose ongoing commitment ensures the course remains in excellent condition and true to the Waterkloof name. Sincere thanks go to all staff for their continued effort and professionalism.

We also encourage all golfers to do their part by repairing pitch marks, filling divots and raking bunkers.

**COURSE CLOSED:
25 MAY 2026**
